

My Halloween Party

Last October, I had a Halloween party. We had the party outside on a warm day. Six friends and my three cousins came. The first thing we did was hunt for plastic eyeballs that my dad hid in the yard. Then we tried to take bites out of apples hanging on strings off of a tree branch. It was hard because we couldn't use our hands. The best part was when we played in a huge leaf pile in my yard. The party was so much fun. I want to have another one next year.
